

My Year 6 Learning Journey Grid. Summer Term Wk2 27.4.2020

MATHS

For maths, this week we will revise our knowledge of angles. Please follow this link to White Rose Maths Home Learning:

<https://whiterosemaths.com/homelearning/year-6/>

Week Two: There is a lesson for each day which includes a short video and an activity sheet. If you can't print them out, then just write your answers on a separate piece of paper. There is an answer sheet too, so you can check your answers. Remember that the angles inside a quadrilateral add up to 360 degrees!

Continue to use What's My Angle to explore angles. It is accessible at <http://flash.topmarks.co.uk/651> If it does not work, try a different browser. There are lots of other resources online to explore angles inside shapes, and you do not need a protractor to do it!

Please access TT Rock Stars to practise your tables skills.

SPELLINGS

Practise these from Monday-Thursday and get someone to test you on them on Friday. Once you've gone through the correct spellings, write a super sentence for each one.

programme
pronunciation
queue
recognise
recommend
relevant
restaurant
rhyme
rhythm
sacrifice

READING

Please read your Accelerated Reader book a minimum of 30 minutes each day. I am checking the quizzing daily and will reset any quizzes if needed. Write a review on each book you read.

ENGLISH

For English this week, I would like you to access the Home Learning pack on the Hamilton Trust website.

The link is: <https://www.hamilton-trust.org.uk/blog/learning-home-packs/>

It is the Year 6 English, Week 4 link. It will download a .zip file.

Within it are internet links to 5 days of lessons, complete with resources and hyperlinks. There is also 1 powerpoint to use during the week. The lessons tell you when to use it.

The materials can be printed, but if that's not possible, then write the work on normal sheets of paper.

The work is based on formal writing and poetry.

Feel free to devise extra activities of your own!

You could write a letter applying for a position on the Titanic.

You could design an advert for a book of poetry, featuring all of the poems you have read over the last two weeks.

You could design a comic strip retelling Jack's Story, with carefully chosen images, settings, captions and speech/thought bubbles. You can re-write it or add detail, if you like.

Be creative and enjoy your English work!

SCIENCE

Our topic this Term is 'Forces'.

Explore the activities and videos linked through this site:

<https://www.everyschool.co.uk/science-key-stage-2-forces.html>

Also, there are a lot of videos on this site:

<https://www.bbc.co.uk/bitesize/topics/znmmn39>

Design an explanation poster for younger children to read, explaining the different forces, how they work, and providing illustrated examples. Think about the language you use, the layout and the fonts.

Try out some more indoor and garden-based activity ideas on this website to explore forces: <https://www.science-sparks.com/ideas-for-learning-about-forces/>

TOPIC: Firstly, please have a look at the daily lessons on BBC Bitesize. There's some really lovely activities to do throughout the week in a variety of subjects.

<https://www.bbc.co.uk/bitesize/tags/zncsscw/year-6-lessons/1>

If you haven't finished your presentation on Brazil, continue with that. If you have, try these activities:

Design a poster encouraging people not to waste paper, card and wood. Link it to the deforestation of the Amazon Rainforest and the destruction of habitats, wildlife and ecosystems.

Design a holiday brochure showcasing what Brazil has to offer, persuading people to visit.

Draw a famous Brazilian landmark.

Any problems, please contact me and I'll be happy to help. Have a lovely week! Mr D ☺
