

My Reception Learning Journey Grid. Week beginning 22.6.2020

Please email me if there is anything that I can help with. Have a lovely week, Miss Wallace 😊

Phonics/Spelling

- Log on to Phonics Play – online phonics games- (Free access using the username march20 and password home).
- Play, 'Pick a Picture'. <https://www.phonicsplay.co.uk/resources/phase/2/pick-a-picture>
Alternatively, the adult writes a word, e.g. teeth and then the child draws a picture to match the word. Don't forget to practise with the digraphs and trigraphs.
- Play the online game 'Picnic on Pluto'. If not online, write some real and nonsense words on card. Your child needs to read them and then sort them into the 2 group...one for the alien Obb (not real words) and one for the alien Bob (real words).
- Your child can practice reading the tricky words: into, he, she, me, we, be, you, are, they, my all, her. Look at newspapers, magazines or leaflets together and circle these words with a felt tip pen or highlighter. Can you write the words in a simple sentence?

English

This week can you read the book Zog by Julia Donaldson with an adult. Below is a link to watch the book <https://www.bbc.co.uk/iplayer/episode/b0bwdw8y/zog>

- Look at the dragons in the illustrations in Zog. Can you draw/paint Zog the dragon and describe him? CHALLENGE: You could write a sentence about him using describing words for what he looks like!

OR

- Can you draw a detailed dragon? Can you describe your dragon. What would your dragon be like? What powers does it have? Can you label your dragon?

Maths – This week in maths, we will be using the resources from the White Rose Home Learning.

<https://whiterosemaths.com/homelearning/early-years/>

- Can you practise counting reliably with numbers from one to 20, place them in order and say which number is one more or one less than a given number.
- Can you complete missing number sequences to 10 and 20? Use a number line to help you.
- In practical activities can you help your child add 2 single digit numbers together? You could use a tens frame to help.
- Can you also help your child to solve subtraction stories like below:

Talking Together
The dragons are practising their flying.
First there were ? dragons.
I flew away.
How many now?
Tell us the story.

- Visit these websites for games to help you:
<https://www.bbc.co.uk/cbeebies/topics/numeracy>
<https://www.topmarks.co.uk/maths-games/3-5-years/counting>
<https://home.oxfordowl.co.uk/kids-activities/fun-maths-games-and-activities/>

Don't forget to practise forming your numbers. 1 2 3

Understanding the World task:

This week we will be looking at plants. Below are some games to play on to learn more:

<http://flash.topmarks.co.uk/2265>

On this link are activities based round the character Sparky the Alien growing plants. Children can compare vegetables and fruits, label the parts of a tree, spell the parts of a plant and put life cycle pictures in order.

You could plant some seeds with an adult and investigate what seeds need to grow and help to look after them.
