

## Worksheet: Nouns

Nouns are naming words. They tell us the names of things. Here are some examples: pirate, ship, flag. They often have a definite article (the) or an indefinite article (a/an/some) in front of them.

Underline the nouns in these sentences (there might be more than one noun in a sentence):

It was a sunny day on board their sailing ship.

He read the front page out loud to the pirates.

"I thought prawns were tiny little things."

"It's a scary monster as big as a house."

"Head for the middle of the ocean."

"Man the cannons!"

"I have a secret weapon."
