

MATHS

This is week 2 of multiplication and division. We are using The Oak Academy resources. Please follow this link:

<https://www.thenational.academy/online-classroom/year-2/maths#subjects> and scroll down the page until you get to lessons entitled '**Multiplication and Division**' lessons 6 -10. *There is a video lesson for every day with activities to complete.*

Daily lessons are still available at: <https://www.bbc.co.uk/bitesize/dailylessons> if you would still like to complete these as well.

Access **Top Marks, Numbots** and **TT Rock Stars** to practise all of your other maths skills.

Follow this link to the Numbots webpage and enjoy some number games:

<https://play.numbots.com/#/account/school-login/23296>

SCIENCE: Living things and their habitats.

Click on this link: <https://durhamwt.com/wildathome/>

Here you will find all sorts of facts about reptiles that live in the UK and across the world. There are some videos to watch as well. Make a fact file about reptiles and include drawings.

Art and DT

We're looking at reptiles this week. Snakes are reptiles. Have you ever seen a snake?

Attached are some instructions to make your own snakes and ladders game.

Try making a bubble snake – it is lots of fun. All you need is a plastic bottle, a sock and some washing up liquid.

Oh and of course some big breaths. See below for instructions

READING

Fiction Express: Last week we finished reading Captain Jellybeard and the South Sea Prawn. I hope you enjoyed it. There are other stories in that series to read. Have a look.

It is *your choice* of story this week. There are lots to choose from, have a go at one you like the look of. Take a quiz after each chapter you read.

Remember after you read any books, look on Accelerated Reader to see if there is a quiz you can complete. If you use Lexia remember to log on and complete your minutes this week.

SPELLINGS

Some more homophones or near homophones - words that sound the same but are spelt differently

**be
bee
quite
quiet
bare
bear
one
won
sun
son**

Practise each day and then do a test on Friday.

ENGLISH

This week, I have something different for you to try.

Click this link:

<https://www.hamilton-trust.org.uk/blog/learning-home-packs/> and

scroll down the page to English Packs and click Year 2, week11.

It will open a zip file with 5 lessons based on a story called 'My uncle is a hunkle' by Lauren Child.

There is a link to click which takes you to a video of the story being read. Watch this first – and then you can try some of the suggested activities each day.

Just use your own paper if you can't download the sheets.

Any problems, please contact me and I'll be happy to help. I hope you are all well. Have a good week. Mrs Jones

Make your own Snakes and Ladders game

What you need

A large piece of card (you could use a cereal box or other box)

Ruler

Pen and pencil

Colouring pens

Pipe cleaners – or more card to draw snakes

Lolly pop sticks

Something for counters

Dice

Glue

If you don't have pipe cleaners why not draw and colour in your own snakes, you could copy your favourite snakes or design your own.

Bubble snakes.

You need:

1. Use a pair of scissors to cut off the bottom of a water bottle:

2. Stretch out the sock and slide it over the open end of the water bottle.

3. Stretch it out so it opens up completely over the water bottle:

4. And then fold it back. Folding it back will keep it snug on the bottle, and it will make it easy to take apart if you are using a good pair of socks that you plan to reuse afterwards.

5. In a small bowl, mix some washing up liquid with a small amount of water and then dip the end of the bottle and sock into it.

6. Then blow on the mouth piece of the bottle to make the bubbles.

The harder you blow, the better your bubbles will turn out. Blowing hard makes a snake. Blowing lightly kind of makes a big ball of bubbles on the end of the bottle.
